Kathryn Peterson, Marketing and Membership Director gave an update from Atlantic Center for the Arts. She presented a summary of Images: A Festival of the Arts that took place from Friday January 25th through Sunday January 27th, 2019. Friday was a very busy day and they had a great turn out. Sunday’s weather did not cooperate, and that festival day was rained out. With some thinking and planning they moved the artists and the event inside the Brannon Center for the final day. The patrons and the artists were very happy. There was a lot of art sold, food that was served and drinks sold. Everyone was very happy according to the survey results. She will submit for payment in a couple weeks. They have their 172nd residency happening now with a mixture of artists.

Presentation of Visitor Data

Walter Klages president of Research Data, LLC presented our calendar year 2017-2018 visitor data, as well as our fall visitor data. All data was impressive in terms of growth. Numbers were up in all categories. Our marketing efforts seemed to be working across the board. We had a slight decrease in the Canadian market and some indications that the dollar value is the source. Comparing 10 other destinations we are number 2 in terms of numbers and the impact our visitors have on our economy.

ITI Digital

Franci Edgerly introduced her team from ITI. Brian the newest member and Aline Gill. She asked Aline to give the presentation on the website. The first update was on ADA compliance how we are progressing. ITI is working page by page on the website and making adjustments to those pages. They have 20 pages started with 690 errors they have reduced the number to 19 errors. Our page count is now 520 and PDF files uploaded is 98. Giff Chumley notified the board that one of the problem areas are the PDF Files not always legible to OCR screen readers. ITI reassured they are continuing to work on errors that may occur
and resolve them. Digital Marketing saw a significant increase of 158% to the website which had 27,173 new visitors. Social media had over 1 million people reached and over 2 million impressions. Average time spent on webpage is 1:23. Which is a good number by google standards, we maintained the time on site. Aline introduced the new trip planner feature and explained the benefits for the partners and visitors. Upcoming project for the spring is the 360-degree videos and parks and trails interactive added to the website which are only now on the app.
