

(Edgewater, FL – May 8, 2020) – City Manager Glenn Irby signed Executive Order No. 2020-01 today authorizing temporary outdoor dining areas by permit and temporarily suspending signage restrictions for all essential services.

Temporary outdoor dining areas are authorized by permit only. Those restaurants that already have outdoor dining areas approved as part of their existing site plan are not required to obtain a permit to serve patrons in those existing outdoor dining areas.

Those restaurants without existing outdoor seating plans may apply for a permit (no fee) in the following ways:

- Using the City's website (<https://www.cityofedgewater.org/ds/page/planning-and-zoning-applications>).
- Submitting completed applications via email (planning@cityofedgewater.org)
- Using the drop box located in front of the Development Services office

Eligibility requirements for restaurants applying for this permit can be found on the City's website:

(<https://www.cityofedgewater.org/ds/page/planning-and-zoning-applications>).

In addition to the temporary outdoor dining permits, the City of Edgewater has also temporarily suspended sign requirements for businesses providing essential services with the following conditions:

- Temporary signage shall not be located within the rights-of-way
- Shall not restrict an accessible path under the Americans with Disabilities Act
- Shall not interfere with or impact the safe passage of vehicular or pedestrian traffic

Any questions regarding these temporary changes may be directed to the Development Services Department at 386-424-2400 xx1502 or emailed to planning@cityofedgewater.org.
